

The background of the entire image is a close-up of a marble surface. It features a complex pattern of veins in shades of cream, light beige, and pale pink, set against a darker, more saturated beige base. The veins are irregular and flowing, creating a sense of organic movement and depth. The lighting is soft and even, highlighting the natural texture of the stone.

ROCK

THE FEEL OF
Real Marble

120x180cm

SURFACE THAT *speaks luxury*

Experience the next level of surface design with our 120×180 cm large format tiles, crafted to bring seamless elegance and visual continuity to any space.

Designed for modern architecture and luxurious interiors, these tiles minimize joints and maximize impact, creating a clean, expansive look that transforms walls and floors into statement elements.

With precision engineering and advanced manufacturing, each slab reflects superior quality, durability, and aesthetic excellence.

Whether you prefer subtle minimalism or bold expressions, our collection offers a versatile range of finishes including Carving, Fab Surface, Glossy, High Gloss, Matt, Silk Surface, and Super White, ensuring the perfect match.

size
120x180cm

Thickness
09_{mm}

120x180^{CM}

FROM ELEGANT LIVING ROOMS TO PREMIUM COMMERCIAL SPACES, THESE TILES ARE DESIGNED TO ENHANCE BOTH STYLE AND FUNCTIONALITY. THEIR LARGE SIZE NOT ONLY ADDS A SENSE OF LUXURY BUT ALSO REDUCES MAINTENANCE BY MINIMIZING GROUT LINES, MAKING THEM IDEAL FOR CONTEMPORARY LIFESTYLES.

EVERY SURFACE IS DESIGNED KEEPING MODERN ARCHITECTURE IN MIND, WHERE SIMPLICITY, SCALE, AND MATERIAL FINISH PLAY A CRUCIAL ROLE IN DEFINING THE SPACE.

THESE LARGE FORMAT TILES ALLOW DESIGNERS AND ARCHITECTS TO CREATE STATEMENT WALLS, ELEGANT FLOORS, AND SOPHISTICATED INTERIORS WITH MINIMAL JOINTS AND MAXIMUM VISUAL IMPACT.

Simplicity is the ultimate form of sophistication. Large surfaces with subtle textures and elegant finishes create interiors that feel calm, balanced, and refined.

Simplicity is the ultimate form of sophistication. Large surfaces with subtle textures and elegant finishes create interiors that feel calm, balanced, and refined.

Whether used in living rooms, bedrooms, offices, or showrooms, these tiles bring a sense of harmony and elegance to every environment.

A REFINED FINISH *balancing smoothness*

In modern architecture, large continuous surfaces are preferred to create clean and uninterrupted visual lines. The 120×180 cm format helps achieve this design philosophy by reducing grout lines and creating a seamless appearance.

• AVAILABLE **SURFACE**

Experience surfaces that reflect pure elegance with a flawless high gloss finish. Designed to amplify light and create a spacious visual appeal, these glossy tiles bring luxury and sophistication into every modern interior.

POLISHED

HIGH GLOSS

LARGE FORMAT
larger impact

Surfaces are no longer just functional elements they define the mood and identity of a space. A well-designed surface can transform an ordinary interior into a sophisticated environment by adding depth, character, and visual harmony.

Modern interior design focuses on simplicity, clean lines, and continuity of materials. Large seamless surfaces help create a visual flow that makes spaces look more open and organized. This design approach brings a sense of calmness and luxury.

CRAFTING SURFACES *that define modern living*

Along with aesthetics, durability and maintenance are also important in modern spaces. High-quality surfaces are designed to resist stains, scratches, and daily wear, making them suitable for both residential and commercial environments where performance is as important as appearance.

A NEW DIMENSION *of Surface*

When surfaces are clean and continuous, the entire space feels larger and more open.

Fewer visual breaks create a smooth flow between walls, floors, and furniture, resulting in a modern architectural look that is both simple and impressive.

General Indication For Handling, Cutting And Laying

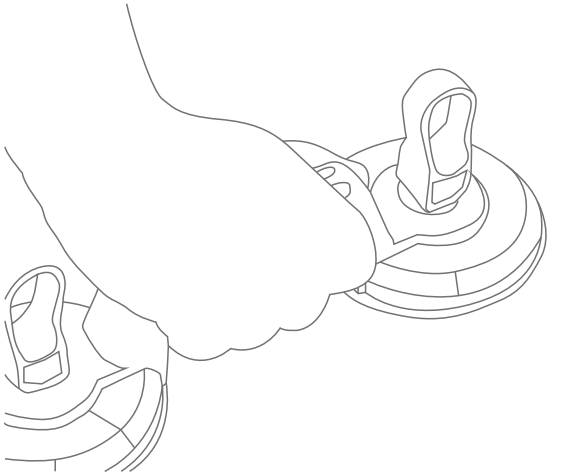

Handling

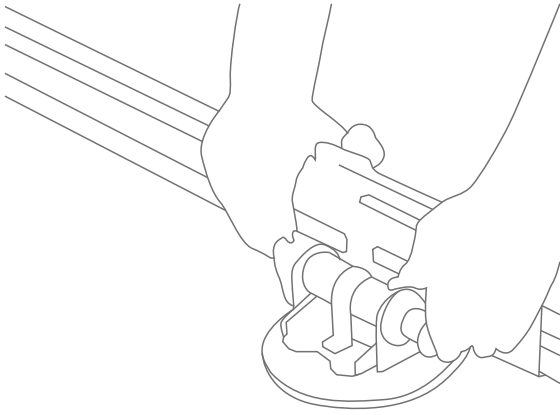

Where possible, mechanical lifting systems should be used for delivering slabs above the ground floor.

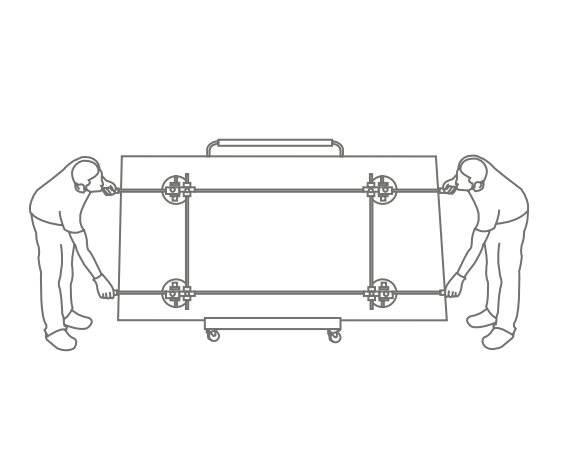

Handling the slabs on the floor can be managed with the aid of a frame fitted with suction cups to make the slabs more stable.

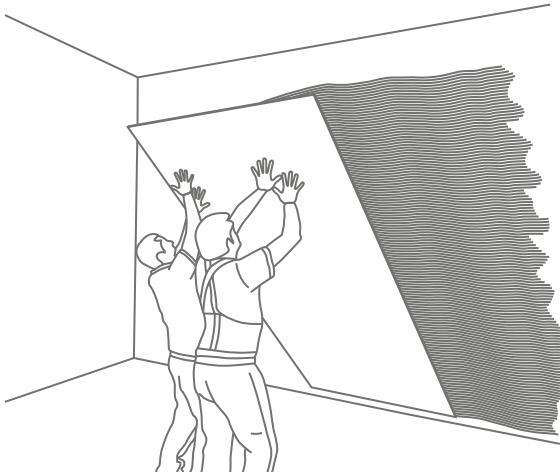

The appropriate suction cups may be used for manual handling.

To facilitate handling of slabs with textured surfaces, the appropriate suction cups should be used.

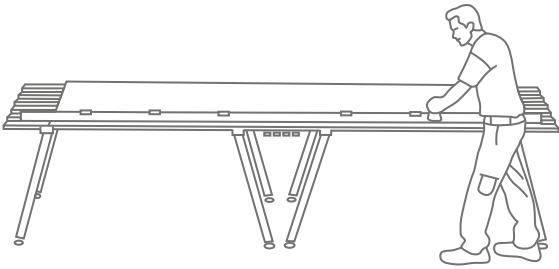

For moving the slabs over large surfaces, a forklift can be used.

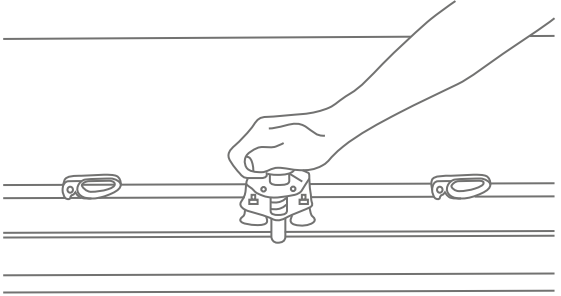

Once the slab is in position, excess air should be removed completely by tapping it either manually or mechanically using the appropriate trowel, starting from the centre and moving out towards the sides.

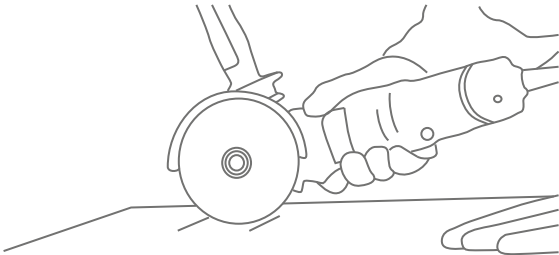

Cutting

Cutting operations should be carried out on a perfectly stable, flat surface.

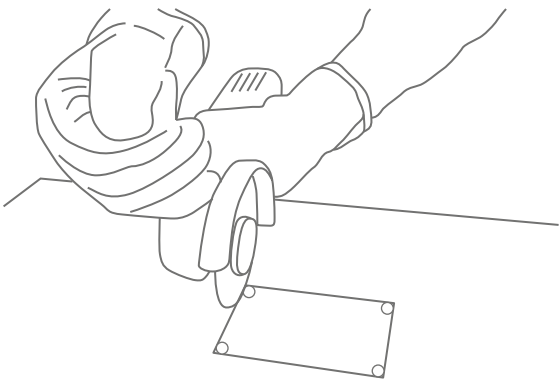

A cutting guide fitted with a diamond tip tool is recommended.

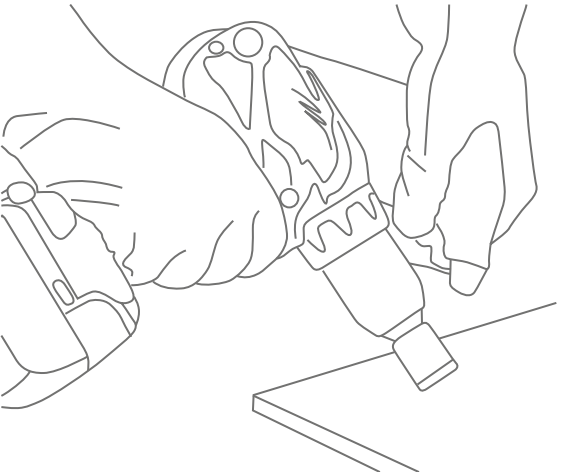

To cut the slab without breaking the material, the appropriate shears should be used.

The slabs can also be cut with a dry saw or wet saw with a diamond wheel cutter.

For L-shaped cuts or cuts inside the slab, holes should be bored at the vertices to prevent the blade of the cutting disk damaging the surface.

To bore cylindrical holes on the slabs, a diamond cutting tool of the desired diameter should be used, and the surface should be kept wet constantly.

TECHNICAL SPECIFICATION
